

Distribution of the Brazilian population according to their religions and faiths (data from the demographic census of 2000)

Note: Some rows in the table that show "(total)" are actually sub-totals of subsequent rows, which are lighter and marked with a dot (.) at left. The faiths and groups of faiths are organized by descending number of followers.

Religion or faith	Total		"by region"				"by gender"			
			urban		rural		men		women	
	contingent	%	contingent	%	contingent	%	contingent	%	contingent	%
(total)	169.872.856	100,00	137.925.238	100,00	31.947.618	100,00	83.602.317	100,00	86.270.539	100,00
